

WHERE REAL DEBATES SHAPE REAL DECISIONS

March 14-15, 2026 | Miami
hmpglobalevents.com/olngreatdebates

Professional Development Opportunity With Immediate Clinical Application

Program Overview

A 2-day, CME-accredited meeting focused on areas of ongoing clinical uncertainty across gastrointestinal, breast, gynecologic, lung, and genitourinary cancers. The format examines competing interpretations of current evidence and their impact on patient care.

Attendance Information

- Dates: March 14–15, 2026
- Location: Miami, FL
- Registration Fee:
 - HCP: \$89
 - Students/Residents/Fellows: \$49
- Full agenda: hmpglobalevents.com/olngreatdebates

Value to Your Clinical Team

- **Efficient CME acquisition:** Provides 7.5 CE credits within a focused 2-day program
- **Improved consistency in data interpretation:** Supports clearer evaluation of emerging clinical trial results in areas where evidence remains in flux.
- **Reduced variability in complex treatment decisions:** Highlights areas where practice patterns differ and clarifies evidence-based considerations.
- **Alignment with evolving standards of care:** Reinforces understanding of how new data informs sequencing, perioperative strategy, and systemic therapy selection.

This program is designed to clarify areas where evidence is evolving and practice patterns differ, with the goal of strengthening evidence-based decision-making in daily solid tumor care.
